S. A. GORDON BARNES, B.A.

With five years' continuous service on the School Board, seeks re-election on the following platform:

- 1. Rigid economy in all departments.
- The elimination of some salaries rather than the reduction of all. The teachers were never too highly paid even under present conditions.
- 3. The development of music, art, physical culture and all special subjects in every school under the supervision of the principal and teachers. An in-terchange of teachers may be necessary to accom-plish this at present.
- The thorough development of the manual arts, as well as the cultured, from the kindergarten to the university, and will urge a government grant for indus-trial and technical education equal to that given for
- 5. The introduction of the Penny Bank System which has proven so successful in other cities. We must teach systematic saving. Turit, economy, and sound living will solve our economic difficulties.
 - The Union Jack to have an honored place in ever school room and specific instruction given to teach its meaning to every child.

Having commandered wheat for no purpose that can be stated, why not commandeer excess pro-fits on war contracts for purposes so obvious that they do not need to be stated?

A quartermaster of one of the Canauan battalions in Sugland has been fired because of "whole-sale thefts" in his department. Surely there is something more coming to him than the loss of the shance to keep on doing it.

It being admitted all round that the success of the voluntary sys-tem depends upon bringing home to the people of Great Britain and the Dominions the situation on the fighting fronts as it exists, and the prospects as they really are, will some one kindly explain why sup-pression bureaus are maintained at London and Ottawa to prevent the situation and its prospects be-ing brought home to the public?
